tributed without profit to those who would like to use such material for research and educational purposes, as well as save themselves from self-genocide and tyranny of the 'Criminal Ruling Elite'.

Today's broadcast is fresh and from pure spiritual memory. **The most critical evi-**

dence is: This entire time, I have been actively Testifying to the world on the Felony Crimes committed against me personally as well as thousands, millions, even billions of others. The resulting Solutions are all listed for all Politicians, Governments, law enforcement, Judicial authorities, corporations, enterprises, churches, and public to actively institute into society as standard practices of conformity and unity that has really never existed since the dawn of mankind.

The most powerful evidence of REMOVING all POLITICS from society starts and ends with **SolutionGovernment.com** and **SolutionURL.com** as all citizens use technology, common sense, and biblical integrity principals to control and manage all of their leadership including Corporate Executives by the Majority Will of the People.

Here is the text directly from FBI Director James Comey address to Congress on Oct 8, 2015 He is EXACTLY the person I have been requested to contact for now +4 years. He will be ashamed and totally shocked when he sees that I have been delivering the worlds first ANTI-Crime, anti-political corruption, Anti-Terrorism, and anti-cybercrime methods and procedures to all governments and corporations for so, so long, it might defy descriptions of POLITICAL CORRUPTION that is so rampant within all these USA government organizations with rare exception of our very own USA Military. That is shown by SolutionMilitary.com clear as clean water produced by SolutionSafeWater.com and TurnOffLights.com all from BidOnKeith.com

James B. Comey
Director
Federal Bureau of Investigation
Statement Before the Senate Committee on Homeland Security and
Governmental Affairs
Washington, D.C.
October 08, 2015

Good afternoon Chairman Johnson, Ranking Member Carper, and members of the committee. Thank you for the opportunity to appear before you today to discuss the current threats to the homeland and our efforts to address new challenges, including terrorists' use of technology to communicate—both to inspire and recruit. The widespread use of technology propagates the persistent terrorist message to attack U.S. interests whether in the homeland or abroad. As the threat to harm Western interests evolves, we must adapt and confront the challenges, relying heavily on the strength of our federal, state, local, and international partnerships. Our successes depend on interagency cooperation. We work closely with our partners within the Department of Homeland Security and the National Counterterrorism Center to address current and emerging threats.

Counterterrorism

Counterterrorism remains the FBI's top priority, however, the threat has changed in two significant ways. First, the core al Qaeda tumor has been reduced, but the cancer has metastasized. The progeny of al Qaeda—including AQAP, al Qaeda in the Islamic Maghreb, and the Islamic State of Iraq and the Levant (ISIL)—have become our focus.

Secondly, we are confronting the explosion of terrorist propaganda and training on the Internet. It is no longer necessary to get a terrorist operative into the United States to recruit. Terrorists, in ungoverned spaces, disseminate poisonous propaganda and training materials to attract troubled souls around the world to their cause. They encourage these individuals to travel, but if they can't travel, they motivate them to act at home. This is a significant change from a decade ago.

We continue to identify individuals who seek to join the ranks of foreign fighters traveling in support of ISIL, and also homegrown violent extremists who may aspire to attack the United States from within. These threats remain among the highest priorities for the FBI and the Intelligence Community as a whole.

Conflicts in Syria and Iraq continue to serve as the most attractive overseas theaters for Western-based extremists who want to engage in violence. We estimate approximately 250 Americans have traveled or attempted to travel to Syria to participate in the conflict. While this

number is lower in comparison to many of our international partners, we closely analyze and assess the influence groups like ISIL have on individuals located in the United States who are inspired to commit acts of violence. Whether or not the individuals are affiliated with a foreign terrorist organization and are willing to travel abroad to fight or are inspired by the call to arms to act in their communities, they potentially pose a significant threat to the safety of the United States and U.S. persons.

ISIL has proven relentless in its violent campaign to rule and has aggressively promoted its hateful message, attracting like-minded extremists to include Westerners. To an even greater degree than al Qaeda or other foreign terrorist organizations, ISIL has persistently used the Internet to communicate. From a homeland perspective, it is ISIL's widespread reach through the Internet and social media which is most concerning as ISIL has aggressively employed this technology for its nefarious strategy. ISIL blends traditional media platforms, glossy photos, in-depth articles, and social media campaigns that can go viral in a matter of seconds. No matter the format, the message of radicalization spreads faster than we imagined just a few years ago.

Unlike other groups, ISIL has constructed a narrative that touches on all facets of life—from career opportunities to family life to a sense of community. The message isn't tailored solely to those who are overtly expressing symptoms of radicalization. It is seen by many who click through the Internet every day, receive social media push notifications, and participate in social networks. Ultimately, many of these individuals are seeking a sense of belonging.

As a communication medium, social media is a critical tool for terror groups to exploit. One recent example occurred when an individual was arrested for providing material support to ISIL by facilitating an associate's travel to Syria to join ISIL. The arrested individual had multiple connections, via a social media networking site, with other like-minded individuals.

There is no set profile for the susceptible consumer of this propaganda. However, one trend continues to rise—the inspired youth. We've seen certain children and young adults drawing deeper into the ISIL narrative. These individuals are often comfortable with virtual communication platforms, specifically social media networks.

ISIL continues to disseminate their terrorist message to all social media users—regardless of age. Following other groups, ISIL has advocated for lone offender attacks. In recent months ISIL released a video, via social media, reiterating the group's encouragement of lone offender attacks in Western countries, specifically advocating for attacks against soldiers and law enforcement, intelligence community members, and government personnel. Several incidents have occurred in the United States and Europe over the last few months that indicate this "call to arms" has resonated among ISIL supporters and sympathizers.

In one case, a New York-based male was arrested in September after he systematically attempted to travel to the Middle East to join ISIL. The individual, who was inspired by ISIL propaganda, expressed his support for ISIL online and took steps to carry out acts encouraged in the ISIL call to arms.

The targeting of U.S. military personnel is also evident with the release of names of individuals serving in the U.S. military by ISIL supporters. The names continue to be posted to the Internet and quickly spread through social media, depicting ISIL's capability to produce viral messaging. Threats to U.S. military and coalition forces continue today.

Social media has allowed groups, such as ISIL, to use the Internet to spot and assess potential recruits. With the widespread horizontal distribution of social media, terrorists can identify vulnerable individuals of all ages in the United States—spot, assess, recruit, and radicalize—either to travel or to conduct a homeland attack. The foreign terrorist now has direct access into the United States like never before.

In other examples of arrests, a group of individuals was contacted by a known ISIL supporter who had already successfully traveled to Syria and encouraged them to do the same. Some of these conversations occur in publicly accessed social networking sites, but others take place via private messaging platforms. As a result, it is imperative the FBI and all law enforcement organizations understand the latest communication tools and are positioned to identify and prevent terror attacks in the homeland.

We live in a technologically driven society and just as private industry has adapted to modern forms of communication so too have terrorists. Unfortunately, changing forms of Internet communication and the use of encryption are posing real challenges to the FBI's ability to fulfill its public safety and national security missions. This real and growing gap, to which the FBI refers as "Going Dark," is an area of continuing focus for the FBI; we believe it must be addressed given the resulting risks are grave both in both traditional criminal matters as well as in national security matters. The United States government is actively engaged with private companies to ensure they understand the public safety and national security risks that result from malicious actors' use of their encrypted products and services. However, the administration is not seeking legislation at this time.

The FBI is utilizing all lawful investigative techniques and methods to combat the threat these individuals may pose to the United States. In conjunction with our domestic and foreign partners, we are rigorously collecting and analyzing intelligence information as it pertains to the ongoing threat posed by foreign terrorist organizations and homegrown violent extremists. We continue to encourage robust information sharing; in partnership with our many federal, state, and local agencies assigned to Joint Terrorism Task Forces around the country, we remain vigilant to ensure the safety of the American public. Be assured, the FBI continues to pursue

increased efficiencies and information sharing processes as well as pursue technological and other methods to help stay ahead of threats to the homeland.

Intelligence

Integrating intelligence and operations is part of the broader intelligence transformation the FBI has undertaken in the last decade. We are making progress, but have more work to do. We have taken two steps to improve this integration. First, we have established an Intelligence Branch within the FBI headed by an executive assistant director (EAD). The EAD looks across the entire enterprise and drives integration. Second, we now have special agents and new intelligence analysts at the FBI Academy engaged in practical training exercises and taking core courses together. As a result, they are better prepared to work well together in the field. Our goal every day is to get better at using, collecting and sharing intelligence to better understand and defeat our adversaries.

The FBI cannot be content to just work what is directly in front of us. We must also be able to understand the threats we face at home and abroad and how those threats may be connected. Towards that end, intelligence is gathered, consistent with our authorities, to help us understand and prioritize identified threats and to determine where there are gaps in what we know about these threats. We then seek to fill those gaps and learn as much as we can about the threats we are addressing and others on the threat landscape. We do this for national security and criminal threats, on both a national and local field office level. We then compare the national and local perspectives to organize threats into priority for each of the FBI's 56 field offices. By categorizing threats in this way, we strive to place the greatest focus on the gravest threats we face. This gives us a better assessment of what the dangers are, what's being done about them, and where we should prioritize our resources.

Cyber

An element of virtually every national security threat and crime problem the FBI faces is cyber-based or facilitated. We face sophisticated cyber threats from state-sponsored hackers, hackers for hire, organized cyber syndicates, and terrorists. On a daily basis, cyber-based actors seek our state secrets, our trade secrets, our technology, and our ideas—things of incredible value to all of us and of great importance to the conduct of our government business and our national security. They seek to strike our critical infrastructure and to harm our economy.

We continue to see an increase in the scale and scope of reporting on malicious cyber activity that can be measured by the amount of corporate data stolen or deleted, personally identifiable information compromised, or remediation costs incurred by U.S. victims. For example, as the committee is aware, the Office of Personnel Management (OPM) discovered earlier this year that a number of its systems were compromised. These systems included those that

contain information related to the background investigations of current, former, and prospective Federal government employees, as well as other individuals for whom a federal background investigation was conducted. The FBI is working with our interagency partners to investigate this matter.

FBI agents, analysts, and computer scientists are using technical capabilities and traditional investigative techniques—such as sources, court-authorized electronic surveillance, physical surveillance, and forensics—to fight cyber threats. We are working side-by-side with our federal, state, and local partners on Cyber Task Forces in each of our 56 field offices and through the National Cyber Investigative Joint Task Force (NCIJTF), which serves as a coordination, integration, and information sharing center for 19 U.S. agencies and several key international allies for cyber threat investigations. Through CyWatch, our 24-hour cyber command center, we combine the resources of the FBI and NCIJTF, allowing us to provide connectivity to federal cyber centers, government agencies, FBI field offices and legal attachés, and the private sector in the event of a cyber intrusion.

We take all potential threats to public and private sector systems seriously and will continue to investigate and hold accountable those who pose a threat in cyberspace.

* * *

Finally, the strength of any organization is its people. The threats we face as a nation have never been greater or more diverse and the expectations placed on the Bureau have never been higher. Our fellow citizens look to us to protect the United States from all of those threats and the men and women of the Bureau continue **to meet—and exceed—**those expectations, every day. I want to thank them for their dedication and their service.

Chairman Johnson, Ranking Member Carper, and committee members, I thank you for the opportunity to testify concerning the threats to the homeland and terrorists' use of the Internet and social media as a platform for spreading ISIL propaganda and inspiring individuals to target the homeland, and the impact of the Going Dark problem on mitigating their efforts. I am happy to answer any questions you might have.

End of James Comey's address.

Here is my very brief response, which is a rarity since I still have never found the first honest person to represent any of my rights or yours either..... My people....

For John 10:30 is what I have been achieving for quite a long while now as even Jesus stated HE did not know when HE would return the second time. Is JESUS wandering our mutual

world and NO-ONE recognizes him as the #1 Sovereign Emissary Ambassador working on behalf of GOD this entire time. Does anyone truly know 'WHO HE IS' or WHO I AM.

Oct 10, 2015. Greetings to our mutual world in the name of the TRINITY. That is the three-some of GOD, Jesus Christ, and the Holy Spirit who I represent this entire time. Read the world broadcast I sent out yesterday. For the absolute PRIME question has always been, Why can an honest person be found who represent YOUR rights in any form or manner ??? For this is exactly what I have encountered for now +8 years to simple recover my own funds that have been used criminally by so many terrorists and criminals to profit and thrive at the expense of all 7.37 Billion of my people.

If I knew WHO to contact to complete the world's first massive round up of all the criminals in our world, I would have years ago. I have used the power of Broadcast Internet to proclaim GOD's love for all of humanity. God has also refrained from intervening this one last time by evidence that no major miracles have been occurring in the past few decades.

This is explained in extremely simplistic manner on the broadcast posts, blogs, and international journalist documentaries that are the ultimate over-kill of criminals conducted by citizens of integrity using 1. simple technology. 2. Common Sense. 3. Use of biblical principals that transcend all religious affiliations and DEMON denominations. DEMON denominations??? yes, demonic cults that claim they have all the answers in their theology. If you do not 100% endorse and believe their leaders, you are shunned as an outsider and even an infidel, pagan, heathen, or other outcast.

I just created the last piece of these Plans of Salvation by updating www.UNITYurl.com with the most critical documentaries I divinely or ordain created over these past 8 years. The starting point will always be www.LearnFirstNames.com, then using SolutionFinal.com in conjunction with all the other comprehensive solutions, our world turns around once and for all. For when citizens control and manage their own leadership and corporate executives, then criminals are shunned by society once and for all. They have no one to bribe, extort, blackmail, coerce, or force to do their evil bidding with promises of wealth, prestige, and power.

I have been waiting for USA Military to contact and come find me for now, 4 very long traumatic and dramatic years of having my life threatened by the exact same USA government agents and many criminals who I have been teaching to turn away from their sinister vile lives of extreme crime.

Who actually contacts Keith Duncan now? I am so, so easy to located and find since I have never hidden from SATAN, the DEVIL agents, or ever being legally charged with any violation tied to terrorist ROSE and master con-artist Ms. Bashama (her van Georgia USA license plate is 'Bashama') Just how hard is it for anyone to actually DO THEIR JOBS to investigate and convict all these criminals where stupidly and criminally conspired to threaten my life because I delivered the worlds first ANTI-CRIME, anti-terrorist, anti-political corruption, and anti-cyber-crime methods and prevention procedures to Langley AirForce Base on Sept 25, 2011. I even had my own 13" macbook pro delivered to Dobbins AFB Marietta GA to OSI Freddie Wilson

as well as the Atlanta Georgia AJC.com back in summer of 2012 along with my critical evidence (770)289-3050 cell phones.

Seems no honest person can be found, including in the over 100 churches I have personally visited and cross marketed in GOD's name over just these past 1.75 years after I was dumped on street by USA government on Jan 28, 2014 as 4:11cr112 was dismissed based on criminal evidence that all points to ManHuntRose.com , not myself.....

K

HERE IS WHAT I Just sent about 30 KEY individuals, too numerous to keep RE-LISTING

Here is absolute ROCK CHRISTIAN BOTTOM of what I have been gifting to all of humanity.

I was kidnapped, denied all my rights, all my assets stolen by ROSE, Ms. Bashama, Duncan Clan, murdered Brian Walker, and each of my own pre-paid lawyers knew my life was threatened BECAUSE I went to US Airforce Sept 25, 2011 to debrief them on ROSE and how to prevent all these cyber attacks and almost all other crimes.

What is truly shameful of everyone who has been legally notified, is that they are DEADLY SILENT and have done absolutely NOTHING to complete these GOD focused ministries I published for the full scale assault of checks and balances on all criminals.

If one does NOT address the evil in the world, you can do all the loving and caring in the world, as a slave traded entity. For that is indeed the bottom feeding end result of our current world status.

Who joins UNITYURL.com for complete world reformation into ONE single government, and ONE single military whose sole purpose is to monitor for political corruption at community and other levels to tell the citizens WHO to SHUN with one referential international database gifted to Interpol and Associated Press on Jan 7, 2015 along with all these other most powerful world broadcasts over the internet.

I STILL can identify ANYONE who represents my rights as the #1 Class Action Plaintiff against each criminal who truly know WHO they are and what they personally did to threaten my life while others stole all my Intellectual Property. THAT was what ROSE and many others have been using for now + 4 years to CYBERATTACK as many governments and individuals as possible.

Any questions now??? I am SO, SO easy to FIND and escort me back to USA for the PRESS CONFERENCE series of all times. I would LOVE to have the USA Military at my side

BBK20151011-FBITHreats-Terrorism-JamesComey-299.pdf Sunday, October 11, 2015

asking the FBI-AG their direct involvement in my kidnapping and subsequent destruction of all the criminals evidence I have turned over, again, and again...

Welcome to BidOnKeith.com International Broadcast network INC.

Does everyone now KNOW WHO I AM, and WHO THEY ARE.....

Keith
